The aforementioned price should be determined in compliance with related requirements of competent authorities. The Board of Directors will be authorized to negotiate with the lead underwriter to have actual price determined in light of market status.

II. Public Application Offering

Pursuant to the Article 267 of Company Act, 10%-15% of the new share issuance will be reserved for employees' preemptive subscription and 10% will be reserved for public offer. The remaining 85%-90% of the share issuance will be reserved for preemptive purchase of original shareholders based on the shareholder's name and his/her shares registered in the shareholders roster at the dividend record date. II. Summary of the Business Plan for 2022

(I) Operating Guideline

- (1) Actively grasp the market trends and international events. Flexible allocation with stable shipment to meet customers' needs under the impact of politics and the pandemics.
- (2) Actively enhance the yield and debottleneck to maximize the existing capacities, prudently control capital expenditure to ensure the production expansion plan is completed as scheduled.
- (3) Actively develop the GaN/Si/SiC products, and work with strategic partners to maximize the complementary synergies in terms of materials.
- (4) Expand the collaboration among government, industry, and academy, deploy our advanced manufacturing process for niche applications and accelerate the development of new technologies.

(II) Estimated sales volume and the basis:

Based on the analysis of World Semiconductor Trade Statistics (WSTS), in 2021, the scale of the global semiconductor market, including discrete semiconductors, optoelectronics, sensors, and ICs, would reach US\$552.961 billion, or grow 25.6% annually, reaching the new record-high. The outlook for 2022 is also optimistic. It is expected that the market scale will grow another 8.8% to US\$601.490 billion, the first time breaching the threshold of US\$600 billion and recording another new historic high.

By the product categories, in 2021, the global IC sales would reach US\$460.841 billion, and the annual growth rate would be revised upwardly from 20.8% to 27.6%. The sales amount of the discrete will grow 26.5% from the previous year to US\$30.100 billion, optoelectronics will grow 7.0% from the previous year to US\$43.229 billion, and the sensors will grow 25.6% from the previous year to US\$18.791 billion.

Although the production chain of electronics has been impacted by the material shortage recently, and the shipment momentum is slowing down, with the strong demands at the end-market, WSTS maintains the 2022 outlook that the global semiconductor market grows continuously; the market scale is revised upwardly from US\$573.440 billion previously to US\$601.490 billion, and the annual growth rate is maintained at 8.8%; in other words, the market breaches the threshold of US\$600 billion for the first time and records another new historic high.

The impacts from COVID-19 on the global semiconductors are still uncertain as the pandemic is

still developing, coupled with Russia-Ukraine war and global inflation, the abovementioned are the best forecasts that may be provided under the current circumstance.

(III) Important production and marketing policies:

- (1) Deepen the cross-country technology integration platform and enhance the overall quality and customer satisfaction to fulfill the market demands.
- (2) Actively engage in the development of compound semiconductors, and fully utilize the existing technologies to expand the leading advantages, to cut into the application of emerging technologies.
- (3) Prudentially control the rising costs resulting from the pandemic and inflation, secure the sources of key materials and parts supplies to ensure smooth production.
- (4) Utilize the broad presence around the world to flexibly allocate capacities, avoid transportation plights and supply customers locally.
- (5) Actively sign long-term agreements with key partners to enhance cooperation.

(IV) Future Strategies

- (1) Implement green manufacturing, fulfill corporate social responsibility, enhance the corporate governance to cement the foundation of sustainable operation.
- (2) By adopting renewable energies, enhancing the energy utilization efficiency, carbon removal and purchasing carbon offsetting goods to achieve the goal of 100% clean energy utilization by 2050.
- (3) Construct a resilient and flexible local supply chain and diversify suppliers to respond to the pandemic and geopolitics impact swiftly.
- (4) By applying the next-generation silicon and compound semiconductors developed with the Group's edge-cutting technologies to become the top global semiconductor wafer supplier in terms of scale, with the most comprehensive products.
- (5) Continuously research and develop patents and strategic positioning to enhance the core of the leading advantages.
- (6) Steadily augment operation scale via expansion to increase the competitiveness in the semiconductor wafer sector.

(V) Effect of External Competition, Regulatory Environment and Overall Economic Environment

- (1) With the development and application of the semiconductor industry, its related products have penetrated people's life. The use of semiconductor products can be seen in daily activities. Therefore, the semiconductor industry boom links with macroeconomics considerably. Due to the Company's wide customer base, the end products spread across various industries and application areas, such as automotive products, power products, memory, etc., which can reduce the cyclical risk from the of a single industry. So when the macroeconomics is not good, the Company can diversify risks and stabilize operations.
- (2) The semiconductor wafer industry has undergone decades of development and has established entry barriers built by technology and patents. However, in the face of new competitors with significant funds, we will closely observe the industry's development. In order to prevent the new manufacturers from actively joining and leading to declining product prices and affect sales and profit, we will continue to combine the technological advantages with our global presence around the world to develop niche products with core technology capabilities, and we will also increase the added value of the product and minimize the cost to increase profit margins.
- (3) The drastic changes in the international circumstance, emerging of COVID-19 variants, Russia-Ukraine war, global inflation and regional trade conflicts have shocked the macroeconomics. However, GlobalWafers has production facilities around the world and thus is able to allocate flexibly in responding to related regulations, lower taxes and operational costs. Our clients all over the world also effectively diversify the impacts from the pandemic to the revenue and lower the economic risks from overdependence on single area. GlobalWafers also keeps close relationships with customers and establishes a resilient local supply chain and business continuity plan (BCP) to cope with various challenges flexibly.
- (4) Carbon neutrality is an international key issue. The governmental regulations, investment institutions, customers and the national policies of trade partners have increasingly scrutinized specifications for energy saving and carbon reduction. The power costs and the carbon tariff at the export destinations are a severe test for the survival ability of enterprises. GlobalWafers owns multiple solar power plants, and the subsidiaries around the world use clean energies to adapt the local policies, plus the profound operation and maintenance experience of solar energy from the parent, Sino-American Silicon Products Inc., GlobalWafers continuously and comprehensively applies various green solutions, expands the ratio of green power utilization, while monitoring various impacts from the

extreme climate, to minimize the operating risks.

Looking to the future, while the outlook is promising, the challenges from the omicron variants, frictions from geopolitics, price hikes of raw materials and energies, and the clogged transportation system still remain. While the global trade diversifies, GlobalWafers actively enhances the local supplies, establishes multiple suppliers, and multiple production routes for better resilience to respond to the rapid evolvement with keen competition; meanwhile, GlobalWafers responds with agility to the drastically fluctuating macroeconomics, and innovates to lead the technology trends for continuously driving the growth momentum in this ever-evolving world.

In consideration of the high volume of sales transactions generated from world-wide operations, revenue recognition is one of the key areas our audit focused on.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included understanding of revenue recognition policies and assessing whether revenue recognition policies are appropriate based on sales terms and revenue recognition criteria; understanding the design and process of implementation of internal controls and testing operating effectiveness; testing selected sales samples and agreeing to customer orders, delivery note and related documentation supporting sales recognition; testing sales cut-off, on a sample basis, for transactions incurred within a certain period before or after the balance sheet date by reviewing related sales terms, inspecting delivery documents, and other related supporting document to evaluate whether the revenue was recorded in proper period.

2. Goodwill impairment assessment

Please refer to the note 4(13) "Impairment of non-financial assets" for accounting policy, note 5 "Significant accounting assumptions and judgments, and major sources of estimation uncertainty" for goodwill impairment assessment, and note 6(9) "Intangible assets" for further details.

Description of key audit matter:

The Group is in a capital intensive industry, with goodwill arising from business combinations. Moreover, the Group operates in an industry in which the operations are easily influenced by various external factors, such as market conditions and governmental policies. Therefore, the assessment of impairment of goodwill is critical. The assessment procedures, including identification of cash-generating units, valuation models, selection of key assumptions and calculations of recoverable cash inflows, depend on the management's subjective judgments, which contained uncertainty in accounting estimations. Consequently, this is one of the key areas in our audit.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included assessing triggering events identified by management for impairment indicators existing in a cash-generating unit, assessing whether the assumptions used for evaluating the recoverable amount are reasonable; evaluating the achievement of prior year financial forecasts; inspecting the calculations of recoverable amounts; assessing the assumptions used for calculating recoverable amounts and cash flow projections; performing sensitivity analysis based on key factors; assessing whether the accounting policies for goodwill impairment test and other relevant information have been appropriately disclosed.

Other Matter

The Company has additionally prepared its parent-company-only financial statements as of and for the years ended December 31, 2021 and 2020, on which we have issued an unqualified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the IFRSs, IASs, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are An-Chin Cheng and Mei-Yu Tseng.

Independent Auditors' Report

To the Board of Directors of GlobalWafers Co., Ltd.:

Opinion

We have audited the parent-company-only financial statements of GlobalWafers Co., Ltd. ("the Company"), which comprise the balance sheets as of December 31, 2021 and 2020, the statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the parent-company-only financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying parent-company-only financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2021 and 2020, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the parent-company-only Financial Statements section of our report. We are independent of the Company in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent-company-only financial statements of the current period. These matters were addressed in the context of our audit of the parent-company-only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Based on our judgment, the key audit matters that should be disclosed in this audit report are as follows:

1. Revenue recognition

Please refer to note 4(15) "Revenue recognition" for accounting policy and note 6(18) "Revenue from contracts with customers" of the parent-company-only financial statements for further information.

Description of key audit matter:

The Company's revenues are derived from the sales of semiconductor materials and components. Revenue recognition is also dependent on whether the specified sales terms in each individual contract are met. In consideration of the high volume of sales transactions generated from world-wide operations, revenue recognition is one of the key areas our audit focused on.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included understanding of revenue recognition policies and assessing whether revenue recognition policies are appropriate based on sales terms and revenue recognition criteria; understanding the design and process of implementation of internal controls and testing operating effectiveness; testing selected sales samples and agreeing to customer orders, delivery note and related documentation supporting sales recognition; testing sales cut-off, on a sample basis, for transactions incurred within a certain period before or after the balance sheet date by reviewing related sales terms, inspecting delivery documents, and other related supporting document to evaluate whether the revenue was recorded in proper period.

2. Evaluation of investments accounted for using equity method

Please refer to the note 4(9) "Investment in subsidiaries" for accounting policy; note 5 "Significant accounting assumptions and judgments, and major sources of estimation uncertainty" for evaluation of investments accounted for using equity method; and note 6(6) "Investments accounted for using equity method" for further details.

Description of key audit matter:

The Company's investments accounted for using equity method were mainly the investments of subsidiaries, arising from business combinations. Moreover, the Company operates in an industry in which the operations are easily influenced by various external factors, such as market conditions. The assessment of subsidiaries' revenue recognition and impairment of goodwill arising from business combinations is crucial; therefore, it is considered to be one of the key areas in our audit.

How the matter was addressed in our audit:

Our audit procedures mainly included assessing triggering events identified by the management for impairment indicators existing in a cash generating unit; assessing whether the assumptions used for evaluating the recoverable amount are reasonable; evaluating the achievement of prior year's financial forecasts; reviewing the calculations of recoverable amounts of cash generating units; evaluating the assumptions used for calculating recoverable amounts and cash flow projections and performing sensitivity analysis based on key factors.

Responsibilities of Management and Those Charged with Governance for the Parent-Company-Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent-company-only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of parent-company-only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent-company-only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Parent-Company-Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent-company-only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent-company-only financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent-company-only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent-company-only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent-company-only financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent-company-only financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent-company-only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are An-Chih Cheng and Mei-Yu Tseng.

A shareholder holding one percent or more of the total number of issued shares may submit to the Company a proposal for discussion at a regular shareholders meeting. The number of items so proposed is limited to one only, and no proposal containing more than one item will be included in the meeting agenda. When the circumstances of any subparagraph of Article 172-1, paragraph 4 of the Company Act apply to a proposal put forward by a shareholder, the board of directors may exclude it from the agenda.

A shareholder may propose a recommendation for urging the Company to promote public interests or fulfill its social responsibilities, provided procedurally the number of items so proposed is limited only to one in accordance with Article 172-1 of the Company Act, and no proposal containing more than one item will be included in the meeting agenda.

A shareholder may issue only one proxy form and appoint only one proxy for any given shareholders meeting, and shall deliver the proxy form to the Company before five days before the date of the shareholders meeting. When duplicate proxy forms are delivered, the one received earliest shall prevail unless a declaration is made to cancel the previous proxy appointment.

After a proxy form has been delivered to the Company, if the shareholder intends to attend the meeting in person or to exercise voting rights by correspondence or electronically, a written notice of proxy cancellation shall be submitted to the Company before two business days before the meeting date. If the cancellation notice is submitted after that time, votes cast at the meeting by the proxy shall prevail.

The meeting may begin no earlier than 9 a.m. and no later than 3 p.m. Full consideration shall be given to the opinions of the independent directors with respect to the place and time of the meeting.

When the Company convenes the video shareholders' meetings, the restrictions of convention location in the preceding paragraph do not apply.

Article 6

The Company shall specify in its shareholders meeting notices the time during which shareholder attendance registrations will be accepted, the place to register for attendance, and other matters for attention.

The time during which shareholder attendance registrations will be accepted, as stated in the preceding paragraph, shall be at least 30 minutes prior to the time the meeting commences. The place at which attendance registrations are accepted shall be clearly marked and a sufficient number of suitable personnel assigned to handle the registrations. The time during

which shareholder attendance registrations will be accepted at the video conference platform shall be at least 30 minutes prior to the time the meeting commences. The shareholders accepted are deemed to attend the shareholders' meeting in person.

Shareholders and their proxies (collectively, "shareholders") shall attend shareholders meetings based on attendance cards, sign-in cards, or other certificates of attendance. The Company may not arbitrarily add requirements for other documents beyond those showing eligibility to attend presented by shareholders. Solicitors soliciting proxy forms shall also bring identification documents for verification.

The Company accepts the sign-in cards turned in by shareholders instead of the attendance book.

The Company shall furnish attending shareholders with the meeting agenda book, annual report, attendance card, speaker's slips, voting slips, and other meeting materials. Where there is an election of directors, pre-printed ballots shall also be furnished.

When the government or a juristic person is a shareholder, it may be represented by more than one representative at a shareholders meeting. When a juristic person is appointed to attend as proxy, it may designate only one person to represent it in the meeting.

Where the Company convenes the video shareholders' meetings, and shareholders intend to attend in the manner of video conference shall register with the Company at least two days prior to the meeting date.

Where the Company convenes the video shareholders' meetings, the Company shall upload the agenda handbook, annual reports and other related information to the video conference platform for the shareholders' meeting, at least 30 minutes prior to the time the meeting commences, and retain the disclosure of such until the meeting ends.

Article 6-1

Where the Company convenes the video shareholders' meetings, the meeting notice shall specify the following matters:

- I. The method for shareholders to attend the video conference and exercise their rights.
- II. The handling method when the video conference platform or participation in the manner of video conference fails due to force majeure, such as natural disasters or incidents, and the follows shall be at least included:
 - (I) Time and date for the postponement or re-convention when the aforesaid continual failure cannot be eliminated and thus a postponement or re-convention is required.
 - (II) The shareholders who have not registered to attend the first shareholders' meeting via video conference must not attend the postponed or re-convened meeting.
 - (III) Where the Company convenes the video-assisted shareholders' meetings, and when the video meeting could not be continued, if the total attending shares still meet the statutory quorum for shareholders' meeting commencement after deducting these shares held by the shares attending the meeting via video conference, the meeting shall continue; the shares held by the shareholders attending the meeting via video conference shall be included in the total shares of

the attending shareholders, but deemed abstaining for all proposals in the concerned shareholders' meeting.

(IV) The handling method where the results of all proposals are announced but the extempore motions have not proceeded.

III. Where the Company convenes the video shareholders' meetings, the proper alternatives provided for the shareholders having difficulties attending in the manner of a video conference shall be specified.

Article 7

If a shareholders meeting is convened by the board of directors, the meeting shall be chaired by the chairperson of the board. When the chairperson of the board is on leave or for any reason unable to exercise the powers of the chairperson, the vice chairperson shall act in place of the chairperson; if there is no vice chairperson or the vice chairperson also is on leave or for any reason unable to exercise the powers of the vice chairperson, the chairperson shall appoint one of the managing directors to act as chair, or, if there are no managing directors, one of the directors shall be appointed to act as chair. Where the chairperson does not make such a designation, the managing directors or the directors shall select from among themselves one person to serve as chair.

When a managing director or a director serves as chair, as referred to in the preceding paragraph, the managing director or director shall be one who has held that position for six months or more and who understands the financial and business conditions of the Company. The same shall be true for a representative of a juristic person director that serves as chair.

It is advisable that shareholders meetings convened by the board of directors be chaired by the chairperson of the board in person and attended by a majority of the directors, at least one supervisor in person, and at least one member of each functional committee on behalf of the committee. The attendance shall be recorded in the meeting minutes.

If a shareholders meeting is convened by a party with power to convene but other than the board of directors, the convening party shall chair the meeting. When there are two or more such convening parties, they shall mutually select a chair from among themselves.

The Company may appoint its attorneys, certified public accountants, or related persons retained by it to attend a shareholders meeting.

Article 8

The Company shall make an audio and video recording of the shareholders meeting.

The recorded materials of the preceding paragraph shall be retained for at least one year. If, however, a shareholder files a lawsuit pursuant to Article 189 of the Company Act, the recording shall be retained until the conclusion of the litigation.

Where the Company convenes the video shareholders' meetings, the Company shall record and retain the records of the registration, enrollment, acceptance, inquiries, voting, and the results of vote calculation, and continuously record the video conference thoroughly, both audio and video.

The records and audio- and video recordings in the preceding paragraphs shall be properly retained during the Company's survival period, and the audio- and video recordings are provided to the organizer of the video conference for custody.

Article 9

Attendance at shareholders meetings shall be calculated based on numbers of shares. The number of shares in attendance shall be calculated according to the shares indicated by the attendance book and sign-in cards handed in and shares registered at the video conference platform, plus the number of shares whose voting rights are exercised by correspondence or electronically.

The chair shall call the meeting to order at the appointed meeting time.

However, when the attending shareholders do not represent a majority of the total number of issued shares, the chair may announce a postponement, provided that no more than two such postponements, for a combined total of no more than one hour, may be made. If the quorum is not met after two postponements and the attending shareholders still represent less than one third of the total number of issued shares, the chair shall declare the meeting adjourned. Where the Company convenes the video shareholders' meetings, the Company shall announce the meeting adjournment on the video conference platform.

If the quorum is not met after two postponements as referred to in the preceding paragraph, but the attending shareholders represent one third or more of the total number of issued shares, a tentative resolution may be adopted pursuant to Article 175, paragraph 1 of the Company Act; all shareholders shall be notified of the tentative resolution and another shareholders meeting shall be convened within one month. Where the Company convenes the video shareholders' meetings, and shareholders intend to attend in the manner of video conference shall register again with the Company per Article 6.

When, prior to conclusion of the meeting, the attending shareholders represent a majority of the total number of issued shares, the chair may resubmit the tentative resolution for a vote by the shareholders meeting pursuant to Article 174 of the Company Act.

Article 10

If a shareholders meeting is convened by the board of directors, the meeting agenda shall be set by the board of directors. Votes shall be cast on the proposals in the agenda. The meeting shall proceed in the order set by the agenda, which may not be changed without a resolution of the shareholders meeting.

The provisions of the preceding paragraph apply mutatis mutandis to a shareholders meeting convened by a party with the power to convene that is not the board of directors.

The chair may not declare the meeting adjourned prior to completion of deliberation on the meeting agenda of the preceding two paragraphs, except by a resolution of the shareholders meeting. If the chair declares the meeting adjourned in violation of the rules of procedure, the other members of the board of directors shall promptly assist the attending shareholders in electing a new chair in accordance with statutory procedures, by agreement of a majority of the votes represented by the attending shareholders, and then continue the meeting.

The chair shall allow ample opportunity during the meeting for explanation and discussion of

proposals and of amendments or extraordinary motions put forward by the shareholders; when the chair is of the opinion that a proposal has been discussed sufficiently to put it to a vote, the chair may announce the discussion closed, call for a vote, and schedule sufficient time for voting.

Article 11

Before speaking, an attending shareholder must specify on a speaker's slip the subject of the speech, his/her shareholder account number (or attendance card number), and account name. The order in which shareholders speak will be set by the chair.

A shareholder in attendance who has submitted a speaker's slip but does not actually speak shall be deemed to have not spoken. When the content of the speech does not correspond to the subject given on the speaker's slip, the spoken content shall prevail.

Except with the consent of the chair, a shareholder may not speak more than twice on the same proposal, and a single speech may not exceed 5 minutes. If the shareholder's speech violates the rules or exceeds the scope of the agenda item, the chair may terminate the speech.

When an attending shareholder is speaking, other shareholders may not speak or interrupt unless they have sought and obtained the consent of the chair and the shareholder that has the floor; the chair shall stop any violation.

When a juristic person shareholder appoints two or more representatives to attend a shareholders meeting, only one of the representatives so appointed may speak on the same proposal.

After an attending shareholder has spoken, the chair may respond in person or direct relevant personnel to respond.

Where the Company convenes the video shareholders' meetings, the shareholders attending in the manner of video conference may inquire with text at the video conference platform of the meeting since the chair announces the meeting commencement till the adjournment. No more than two inquiries shall be raised for each proposal, and the maximum length is 200 words. Paragraphs 1 to 5 are not applicable.

Article 12

Voting at a shareholders meeting shall be calculated based the number of shares.

With respect to resolutions of shareholders meetings, the number of shares held by a shareholder with no voting rights shall not be calculated as part of the total number of issued shares.

When a shareholder is an interested party in relation to an agenda item, and there is the likelihood that such a relationship would prejudice the interests of the Company, that shareholder may not vote on that item, and may not exercise voting rights as proxy for any other shareholder.

The number of shares for which voting rights may not be exercised under the preceding paragraph shall not be calculated as part of the voting rights represented by attending

shareholders.

With the exception of a trust enterprise or a shareholder services agent approved by the competent securities authority, when one person is concurrently appointed as proxy by two or more shareholders, the voting rights represented by that proxy may not exceed three percent of the voting rights represented by the total number of issued shares. If that percentage is exceeded, the voting rights in excess of that percentage shall not be included in the calculation.

Article 13

A shareholder shall be entitled to one vote for each share held, except when the shares are restricted shares or are deemed non-voting shares under Article 179, paragraph 2 of the Company Act.

When the Company holds a shareholder meeting, it shall adopt exercise of voting rights by electronic means and may adopt exercise of voting rights by correspondence. When voting rights are exercised by correspondence or electronic means, the method of exercise shall be specified in the shareholders meeting notice. A shareholder exercising voting rights by correspondence or electronic means will be deemed to have attended the meeting in person, but to have waived his/her rights with respect to the extraordinary motions and amendments to original proposals of that meeting; it is therefore advisable that the Company avoid the submission of extraordinary motions and amendments to original proposals.

A shareholder intending to exercise voting rights by correspondence or electronic means under the preceding paragraph shall deliver a written declaration of intent to the Company before two days before the date of the shareholders meeting. When duplicate declarations of intent are delivered, the one received earliest shall prevail, except when a declaration is made to cancel the earlier declaration of intent.

After a shareholder has exercised voting rights by correspondence or electronic means, in the event the shareholder intends to attend the shareholders meeting in person or in visual communication network, a written declaration of intent to retract the voting rights already exercised under the preceding paragraph shall be made known to the Company, by the same means by which the voting rights were exercised, before two business days before the date of the shareholders meeting. If the notice of retraction is submitted after that time, the voting rights already exercised by correspondence or electronic means shall prevail. When a shareholder has exercised voting rights both by correspondence or electronic means and by appointing a proxy to attend a shareholders meeting, the voting rights exercised by the proxy in the meeting shall prevail.

Except as otherwise provided in the Company Act and in the Company's Articles of Incorporation, the passage of a proposal shall require an affirmative vote of a majority of the voting rights represented by the attending shareholders. When voting, shareholders shall vote by poll. After the conclusion of the meeting, the results for each proposal, based on the numbers of votes for and against and the number of abstentions, shall be entered into the MOPS.

When there is an amendment or an alternative to a proposal, the chair shall present the amended or alternative proposal together with the original proposal and decide the order in which they will be put to a vote. When any one among them is passed, the other proposals will

then be deemed rejected, and no further voting shall be required.

Vote monitoring and counting personnel for the voting on a proposal shall be appointed by the chair, provided that all monitoring personnel shall be shareholders of the Company.

Vote counting for shareholders meeting proposals or elections shall be conducted in public at the place of the shareholders meeting. Immediately after vote counting has been completed, the results of the voting, including the statistical tallies of the numbers of votes, shall be announced on-site at the meeting, and a record made of the vote.

Where the Company convenes the video shareholders' meetings, the shareholders attending in the manner of video conference shall vote via the video conference platform for each proposal and election after the Chairman declares the meeting commencement. Such voting shall be completed before the Chairman declares the end of voting; anyone who misses the deadline is deemed giving up their right.

Where the Company convenes the video shareholders' meetings, the votes shall be calculated at once upon the end of voting declared by the chair, and announce the results of voting or elections.

Where the Company convenes the video-assisted shareholders' meetings, the shareholders who already have registered to attend the meeting in the manner of video conference pursuant to Article 6, but then intend to attend the off-line shareholders' meeting in person, shall withdraw the registration in the same manner of registration two days prior to the shareholders' meeting date; these who miss the deadline may only attend the shareholders' meeting in the manner of a video conference.

Those who exercise the vote in the manner of writing or electronic method, without withdrawing their expressions of intents, and attending the meeting in the manner of video conference, other than the extempore motions, must not exercise the votes to the original proposal, propose any amendment to the original proposal, or exercise the votes to the amendment to the original proposal.

Article 14

The election of directors at a shareholders meeting shall be held in accordance with the applicable election and appointment rules adopted by the Company, and the voting results shall be announced on-site immediately, including the names of those elected as directors and the numbers of votes with which they were elected.

The ballots for the election referred to in the preceding paragraph shall be sealed with the signatures of the monitoring personnel and kept in proper custody for at least one year. If, however, a shareholder files a lawsuit pursuant to Article 189 of the Company Act, the ballots shall be retained until the conclusion of the litigation.

Article 15

Matters relating to the resolutions of a shareholders meeting shall be recorded in the meeting minutes. The meeting minutes shall be signed or sealed by the chair of the meeting and a copy distributed to each shareholder within 20 days after the conclusion of the meeting. The meeting minutes may be produced and distributed in electronic form.

The Company may distribute the meeting minutes of the preceding paragraph by means of a public announcement made through the MOPS

The meeting minutes shall accurately record the year, month, day, and place of the meeting, the chair's full name, the methods by which resolutions were adopted, and a summary of the deliberations and their voting results (including the number of voting rights), and disclose the number of voting rights won by each candidate in the event of an election of directors. The minutes shall be retained for the duration of the existence of the Company.

Where the Company convenes the video shareholders' meetings, other than the matters to be recorded as required in the preceding paragraph, the starting and ending time of the shareholders' meeting, convening method of the meeting, names of the chair and record-keeper, and the handling methods when the video conference platform or participation in the manner of video conference fails due to force majeure, such as natural disasters or incidents.

Where the Company convenes the video shareholders' meetings, other than complying with the preceding paragraph, the minutes shall also specify the alternatives for the shareholders having difficulties attending in the manner of video conference.

Article 16

On the day of a shareholders meeting, the Company shall compile in the prescribed format a statistical statement of the number of shares obtained by solicitors through solicitation and the number of shares represented by proxies, and shares attended by shareholders in writing or electronic way and shall make an express disclosure of the same at the place of the shareholders meeting. Where the Company convenes the video shareholders' meetings, the Company shall upload aforementioned information to the video conference platform for the shareholders' meeting, at least 30 minutes prior to the time the meeting commences, and retain the disclosure of such until the meeting ends.

Where the Company convenes the video shareholders' meetings, the total shares held by the shareholders attending the meeting shall be disclosed on the video conference platform. If the total shares and voting rights of the attending shareholders are counted during the meeting, the same applies.

Article 17

Staff handling administrative affairs of a shareholders meeting shall wear identification cards or arm bands.

The chair may direct the proctors or security personnel to help maintain order at the meeting place. When proctors or security personnel help maintain order at the meeting place, they shall wear an identification card or armband bearing the word "Proctor."

At the place of a shareholders meeting, if a shareholder attempts to speak through any device other than the public address equipment set up by the Company, the chair may prevent the shareholder from so doing.

When a shareholder violates the rules of procedure and defies the chair's correction, obstructing the proceedings and refusing to heed calls to stop, the chair may direct the proctors or security personnel to escort the shareholder from the meeting.

Article 18

When a meeting is in progress, the chair may announce a break based on time considerations. If a force majeure event occurs, the chair may rule the meeting temporarily suspended and announce a time when, in view of the circumstances, the meeting will be resumed.

If the meeting venue is no longer available for continued use and not all of the items on the meeting agenda have been addressed, the shareholders meeting may adopt a resolution to resume the meeting at another venue.

A resolution may be adopted at a shareholders meeting to defer or resume the meeting within five days in accordance with Article 182 of the Company Act.

Article 19

Where the shareholders' meetings are convened in the manner of video conference, the Company shall, in real-time, disclose the voting result of each proposal and election results at the video conference platform for the shareholders' meeting, and retain the disclosure at least 15 minutes after the chair declares adjournment.

Article 20

When the Company convenes the video shareholders' meetings, the chair and the record-keeper shall be at the same location in Taiwan.

Article 21

Where the shareholders' meeting is convened in the manner of video conference, the chair, when declaring the meeting commencement, shall also declare the events not requiring postponement or re-convention specified in Paragraph 4, Article 44-20 of the Regulations Governing the Administration of Shareholder Services of Public Companies; before the chair declares the adjournment, in the event where the video conference platform or the participation in the video conference fails for 30 minutes or more due to natural disasters, incidents, or other force majeure, the date of the shareholders' meeting postponed to, or re-convened shall be within five days, and Article 182 of the Company Act shall not apply.

Where the meeting is to be postponed or re-convened as specified in the preceding paragraph, the shareholders who have not registered to attend the first shareholders' meeting via the video conference must not attend the postponed or re-convened meeting.

For the meeting is to be postponed or re-convened as specified in Paragraph 1, the shareholders who registered to attend the original meeting via the video conference, and have completed the acceptance, but do not attend the postponed or re-convened meeting, their attending shares at the original meeting, the exercised voting right and election right, shall be counted into the total shares, voting rights, and election rights of the attending shareholders in the postponed or re-convened meeting.

The postponement or re-convention of shareholders' meetings conducted per Paragraph 1 needs not again discuss and resolve the proposal that has completed voting and vote

calculation, with the announcement of voting results, or the list of elected directors.

Where the Company convenes the video-assisted shareholders' meetings, and when the video meeting is discontinued as specified in Paragraph 1 and the total attending shares still meet the statutory quorum for shareholders' meeting commencement, the postponement or re-convention of the meeting per Paragraph 1 is not required.
