【Shilei Elementary School Restoration With Love 】

The weather in Taiwan is hot and rainy due to locating in subtropical climate area, which causes severely affect to many buildings. It would lead to buildings water leak, water damage, insulation damage etc. Shilei Elementary School is also facing the same problem. SAS and GWC Group has engaged in Education issue for very long time. We hope that we can make students obtain better education quality through practical assistance.

This charity was initiated by SAS and GWC Group. We hope that we can help Shilei Elementary School repair their buildings through kindness donation from coworkers in groups. In addition to preventing the buildings from weather damage, it also can make teachers and students have a better educational environment.

【Even The Epidemic Is Severe, Love Is Still There】

It was originally planned that 11 people from the three sites (SAS,GWC,TEM) would go to Shilei Elementary School to participate in the ceremony. However, as the epidemic continued to become severer, we sent representatives to participate in the ceremony instead. The ceremony schedule had been reduced to only the ceremony of awarding a certificate of appreciation. Although it was so pity that the ceremony could not be held completely due to the epidemic, our love can still become a warm force in the hearts of each teacher and student during the period of panic caused by the epidemic.

【Overcome All Difficulties Just To Deliver Our Love】

We encountered some difficulties on our way to Shilei Elementary School. There were electric equipment emergency repairs and road construction work on our way to school. After facing all the difficulties, we arrived at Shilei Elementary School. However, Shilei Elementary School was also in a state of power outage. It was a heavy rain and severe fog on the way home, which made our trip more difficult.

【Charity Reflection What Else Can We Do】

SAS and GWC Group has help Shilei Elementary School for four years since the Dream Realization Project, we are so familiar with their situation. Because of reality, many parents are forced to leave their hometown to work for living. It causes that most of students are grandparenting. In addition to helping them by donation, we can also help elder of the tribes by purchasing primary products which cropped by them. This is also a goal that we can strive for in the future.

Due to the impact of Covid-19, there are many restrictions on activities and the limitations on number of people. However, it was very touching that seeing coworkers in company were still very active in participating in this charity to show their love and concern during severe epidemic. We appreciate all the participants of this event. Without the help, we would not be able to complete such a meaningful activity.
