緣起

Motivation

根據衛服部統計，2020年以來0至6歲遲緩兒童通報人數每年超過26,000名。有超過26,000名的發展遲緩兒童的家庭，父母需要花比一般家庭更多的時間、金錢與心力，從孩子出生後都比一般家庭辛苦。

遲緩兒童是指，6歲以前兒童 不論先天或後天各種原因所導致動作發展、認知發展、語言溝通發展、社會適應發展、情緒心理發展或生活自理技能等方面有顯著落後或異常超過20%之兒童。

According to statistics from Ministry of Health and Welfare , there have been more than 26,000 reported cases of children aged 0 to 6 with developmental delays each year since 2020. For the families of these over 26,000 children with developmental delays, parents need to spend more time, money, and effort compared to typical families. It's a more challenging journey for them from the moment their child is born.

Developmentally delayed children are defined as children under the age of 6 who, for various congenital or acquired reasons, exhibit significant delays or abnormalities exceeding 20% in areas such as motor development, cognitive development, language and communication development, social adaptation, emotional and psychological development, or self-care skills.

緣起

Motivation

根據研究指出，發展遲緩兒童若不能及早給予協助，例如各種醫療復健、特殊教育、家庭支持、福利服務等，可能成為身心障礙的人口，將造成家庭及社會的負擔。對於發展遲緩的孩子，透過醫療、教育及社政資源的介入，部分發展遲緩兒童可以減少未來形成身心障礙的可能，或減輕障礙的程度，甚至一部分的孩子可以經過早期療育而趕上。然而為提供孩子必要的協助，往往家長需要花費許多金費，且社會上的資源不夠的情況下，許多兒童無法得到必要的協助與照顧。

According to research, it is indicated that if developmental delayed children do not receive early assistance, such as various medical rehabilitation, special education, family support, and welfare services, they may become part of the population with physical and mental disabilities, placing a burden on both families and society. For children with developmental delays, intervention through medical, educational, and social resources can help reduce the risk of developing disabilities in the future or mitigate the severity of disabilities. Some children can even catch up with their peers through early intervention. However, to provide the necessary assistance to children, parents often need to spend a significant amount of money. Additionally, in situations where societal resources are insufficient, many children are unable to access the necessary support and care.

緣起

Motivation

中美矽晶集團與環球晶圓集團長期致力於協助社會弱勢族群，有鑒於這些遲緩兒童無法得到必要的協助與妥善的照顧，若能夠提供援助讓他們能夠接受早期療育，除了舒緩這些家庭面對的資金問題外，也讓社會福利資源有足夠的量能提供專業的治療。本次集團與心路基金會合作，期望能夠為這些家庭與兒童盡一份心力。

The SAS Group and GWC Group have been committed to assisting disadvantaged communities for the long term. Recognizing that these children with developmental delays often cannot access the necessary support and proper care, providing aid for them to receive early intervention not only eases the financial burden on these families but also ensures that there are enough welfare resources to provide professional treatment. In collaboration with the Syin-Lu Social Welfare Foundation, the group aims to contribute to these families and children in need.

愛心募集

Fundraising

為了這些家庭渡過難關，集團在內部發起員工愛心募集活動，除了鼓勵員工關心與重視社會中的弱勢族群外，也期望能夠透過捐款的方式幫助這些需要協助的人們。本次計畫提供心路基金會協助遲緩兒童家庭專業的早期療育資源，聘請專任的物理治療師或職能治療師為兒童服務。本次募款目標為\$300,000元，最終在員工的共襄盛舉以及集團的協助之下總共募得\$360,000元。

In order to support these families through difficult times, the Groups initiated an internal employee fundraising campaign. This initiative not only encourages employees to care about and prioritize disadvantaged communities but also aims to help those in need through donations. This project is focused on providing the Syin-Lu Social Welfare Foundation with resources for professional early intervention for families with children with developmental delays, including hiring dedicated physical therapist or occupational therapist to serve these children. The fundraising goal for this initiative was set at NTD 300,000, and thanks to the collective efforts of employees and the support of the group, a total of NTD 360,000 was raised.
